10. (Confidential - GLC) Kempton Jenkins, Department of State Congressional Relations, called with regard to the Muskie amendment to the State Authorization bill requiring that ambassadors be kept fully informed of activities of all Government employees within the countries of their jurisdiction. Jenkins said he had talked with Representative Wayne Hays about this amendment which was accepted by the Senate and Hays has agreed to fight it in the House but has asked for a background briefing on the subject. It is Hays' intention to put into the amendment the qualifying language of President Kennedy's original instruction on this subject. Jenkins asked if we would be willing to give Hays a background briefing. I told him there had been recent contact between Hays and Chairman Lucien Nedzi, Intelligence Subcommittee of House Armed Services Committee, and I would want to talk with Nedzi about the situation before contacting Hays who has been rather hostile toward the Agency on occasions in the past.
